Problems

Question: "Considering your personally experienced problems stated in the previous question, which ones would you classify as the five most critical ones?"

Variable	Option	Type
comflaw-team	Communication flaws within our project team	Ord(5) (top 1 – top 5)
comflaw-customer	Communication flaws between the project and the customer	Ord(5) (top 1 – top 5)
comflaw-user	Lack of communication between the project team and end users	Ord(5) (top 1 – top 5)
channels	Communication channels used in our project are ineffective	Ord(5) (top 1 – top 5)
changes	Changes in requirements are not communicated	Ord(5) (top 1 – top 5)
hidden	Incomplete or hidden requirements	Ord(5) (top 1 – top 5)
support	Insufficient support by our project lead	Ord(5) (top 1 – top 5)
inconsistent	Inconsistent requirements	Ord(5) (top 1 – top 5)
traceable	Requirements are not traceable	Ord(5) (top 1 – top 5)
moving-target	Targets are moving (changing goals, business processes and/or requirements)	Ord(5) (top 1 – top 5)
gold-plating	Gold plating (implementation of features without corresponding requirements)	Ord(5) (top 1 – top 5)
weak-access	Weak access to customer needs and / or (internal) business information	Ord(5) (top 1 – top 5)
weak-knowledge	Weak knowledge about customer's application domain	Ord(5) (top 1 – top 5)
time	We do not have enough time to carry out tasks	Ord(5) (top 1 – top 5)
unfeasible	Technically unfeasible requirements	Ord(5) (top 1 – top 5)
underspecified	Underspecified requirements that are too abstract and allow for various interpretations	Ord(5) (top 1 – top 5)
unclear	Unclear or unmeasurable non-functional requirements	Ord(5) (top 1 – top 5)
trust-team	Lack of trust between our project team members	Ord(5) (top 1 – top 5)
trust-customer	Lack of trust between our project team members and stakeholder or customer	Ord(5) (top 1 – top 5)
representation	An important stakeholder is not represented in our project	Ord(5) (top 1 – top 5)
responsibility	Our team's responsibilities are unclear	Ord(5) (top 1 – top 5)
terminology	Problems with terminology	Ord(5) (top 1 – top 5)
language	Language barriers	Ord(5) (top 1 – top 5)
